## About me

A UI & UX Designer who is like to create better and more effective digital experiences for users. Her artistic background and design as a freelance for Iranian companies and foreign companies for 4 years have expanded her communication and collaboration skills and they have caused clients and teams, earning their satisfaction.

By deeply understanding the challenges of each project, she customized solutions that meet and exceed expectations. Receiving new projects, or working in companies where employee growth is important for them, and they invest in the people who cause the company's success, are among her key goals.

## UI & UX experience

- **Freelance Design Projects For Companies Both Inside And Outside Of Iran** 2020 - Present
  - Design mobile app
  - Design website
